Straight Shooter Line of Credit Process

Our company now offers qualifying candidates Large Unsecured Lines of Credit, either as Credit and/or a Loan or series thereof. We screen and match your criteria with motivated lenders who will not turn you down, but are wanting to give you credit or a loan. To be the most optimistic, we can get many SIX-FIGURE CREDIT LIMITS (\$100,000 or more) where others can not. The purpose of the loans can be for Business or Personal, it depends on which you get approved for.

If you get a Business loan, then you must use the money to save, start, or grow a new or existing business; or you can use the funds as a business decision, to buy or invest in someone else's business, or any other lawful business purpose. You can pay yourself a Salary as long as you are running a business. Misuse of the funds can get you into trouble if you do wind up defaulting on the loan. It is fraud to lie on a loan application about your intentions. Although rarely prosecuted criminally for unsecured loans, it still is never advisable to lie. Therefore we can coach you or provide documentation such as salary agreements, board meeting minutes, etc, so that you can document that the use of the company's funds are proper. On personal loans, you need no record-keeping and can do anything whatsoever that you like with the funds.

Fortunately, you have come to the right place because we are a No Nonsense, No B.S. company. We prefer to cut to the chase and just tell you in the beginning, Yes or No, whenever it is possible to ascertain the likelihood of success in any proposed program or arrangement. As you probably have gotten to experience, we are not engaged in Exaggerated Claims or unrealistic hopes like others commonly do. We are Straight Shooters with Integrity and only work with those who are the same. We are Entrepreneurs working to build other companies, who have figured this out ourselves and are grateful to share the results of our struggle to narrow down the formula to get it done without delays, rejections, or nonsense.

Actually, a lot of this process is next to impossible in figuring out yourself, and it's only from meeting the right people that makes this all possible. Now, you have met the right people too, as you have met us. Our funding process allows you to get larger amounts of money by 10x to 20x LARGER compared to walking down to your local bank and asking for a loan, or compared to filling out a credit card application you get in the mail.

However, *stay calm and stay cool* because at the time you read this, there is only 5-10% of people who will immediately fit this criteria to get funded now. Our goal is not to work with everybody, we only specialize in people with GREAT CREDIT **or those who Know Someone with Great Credit****; and helping you and them, obtain SIX-FIGURE LINES OF CREDIT within 4-8 weeks time.

We can even get \$500,000-\$1 Million in BUSINESS CREDIT LIMITS, due to subsequent rounds of funding with the initial funding that you already had. This is only for the risky or some confident and secure business owners who know what to do with the money! The opportunity to cycle back around to get a SECOND and THIRD ROUND OF FUNDING is unlimited to those with a brilliant mind, as one can easily recruit other directors into the company, and use their credit for more funding, in exchange for consideration such as partial ownership of the company. However, we give coaching and words of advice along the process as more money has more responsibility and more liability. Due to this, we highly suggest and prefer to deal with our clients who already are **Secured Party Creditors**, as this limits the liability that is incurred (if your loans go into default, etc).

So, if you have large plans and visions, you can get As Many Cards and Credit Limits as possible allowing you MILLIONS in spending, business leverage, business travel, personal loans, paying salaries including your own obviously... and investment capital to secure your financial future, pay off your mortgage or other debt, or launch your dream project/business/charity – all within 60 days from

now. To those in our Inner Circle, we can suggest and support you in how to make any Additional Rounds of Funding LARGER than even the first round, we even have high-yield investment referral networks where you can invest in our own internal projects or other assets. We can recommend things that we have already done and are already doing (This is for the Inner Circle Members).

We have partnered with true seasoned experts in the field, but only after testing dozens and dozens of companies, some of which make false claims and most of which charge large up front fees without delivering results. Others promise that they can fund “anyone” who pays them their up-front fees; or can get funding for CPN numbers, or without needing a social security number. The fact is that is generally not possible.

This program is not for everyone. We have found that only the 10% with the best criteria can apply and get approved for six-figure unsecured credit lines. However, all this means is that if you do not fit the criteria, you can recruit or partner with a friend who *does* fit the criteria and make them a part-owner, officer, or investor of your company in exchange for utilizing their credit to get your company funded. You can consult with us separately to get ideas, documents, and tools on this or other ways you can take advantage of this program even if you can not use your own personal credit score.

Over the past 31 months, my partner and I have tirelessly incurred a personal and financial burden of investing hundreds of hours and tens of thousands of dollars testing every company that we found and researched. We have been scammed over 15 times!! We suffered the burden of loosing all that money and wasted energy and time, FOR YOU. This is the program that works, and there are no fees unless and until it does work. *It's a very exciting time to be alive and to help our friends.*

And now, after blood sweat and tears, we are excited to announce that we have finally found the world's best and fairest funding sources, lenders, and brokers for Entrepreneurs or Investors who CAN AND DO DELIVER FANTASTIC RESULTS!

If you don't fit all the criteria now and would like to work towards the qualifications over a bit of time, then follow the resources we recommend in order to fix/clean up your credit, so that one day you can come back to this page and then utilize this rare opportunity! All successes take some longer-term planning!

So, once again, I just ask, that if you do not currently fit these criteria, then we can't and won't be able to get you any Credit Lines.

What About My Credit Score Number?

The Credit Score NUMBERS, i.e. 760, 720, 685, is NOT important, what is important is the above listed criteria Only !!

Fees may change based on the particular lender and particular contract that you were approved for. You do not have to agree to any funding program unless you want to.

What If I'm Not a Natural-Born Entrepreneur? Or – Are There Any Lazy Ways to Use My Funding to Make Money such as Investments, etc?

What if you are not confident in your own personal entrepreneurial/business skills, or do not wish to be the CEO working long hours doing all the work? What if you do not wish to assume all the risk/liabilities personally? Hands down the best option for you is the Lazy Man's way to Riches - and instead be the venture capitalist for someone else – with your line of funding, you can now directly

invest in others ideas and visions you support and believe in; and not doing any work personally but reaping your share of the rewards when that business is successful.

Millionaire Creator Mentor Club:

Once you get your Credit, we also have a “Millionaire Creator Mentor Club” to share ideas, strategies, insights, and people, and where you can even purchase a business plan, idea, or entire company – OR where you can listen to other entrepreneurs business plans, and have the chance to invest in their startup company or help take an existing company to the next level.

If you can certify that you currently fit all of the mandatory criteria, then please fill out the attached Application Sheet, submit by email/fax Today along with your Three Score Credit Score Report from the past five days exclusively from: www.Equifax.com

PLEASE SUBMIT A SEPARATE LOC FUNDING APPLICATION AT THE SAME TIME FOR ANY/ALL OFFICERS AND/OR SPOUSES OR INVESTORS/SPONSORS WHO MEET THE POTENTIAL FUNDING REQUIREMENTS (AT LEAST THREE OPEN/CURRENT REVOLVING ACCOUNTS WITH AT LEAST A FIVE YEAR HISTORY OF GOOD STANDING)

I also am responsible for paying a \$3999 fee for the Aged Corporation if I did not provide the aged corporation already. I understand that if I do not get funding or agree to a funding program, I will not be responsible for any fees. We only charge you if we get your company funded!

PREREQUISITE #7: Agree To The Understanding

Loans subject to lender approval. This application is the beginning of the beginning. This application is not a contract and we can not promise you any loan unless you are approved by a lender, in which case a contract will be presented to you. To obtain the desired goal of obtaining a loan, there may be several phases in the process with several different fees for each of them. There are also no guarantees your criteria, efforts, time, and money involved will actually result in a loan agreement. If you are our client, our team will do everything in our power to help obtain your funding goals. We may also terminate our assistance if we find out or suspect that you are attempting to obtain the funding for anything unlawful or unethical. Please initial here showing that you agree to these terms of engagement: _____

I believe life is for living, laughing, and loving and not working any more than I have to. Do you agree?

4. Upon transmission of your Application/s, please wait 3-4 days for us to review and then call UCL at 505-340-3632 extension x2 for us to approve of your application and provide payment instructions.

FOR THOSE WHO DISQUALIFIED: STRATEGY GUIDE

“To Do List” So One Day in the Future You Can Qualify:

1. Keep Open and Paying on Three or more Accounts, until they are Five Years Old. If they are car loans/mortgages, do not pay them off or close them down. Keep paying minimum's only. Do not do anything to cause them to close down completely. Keep/apply for Credit Cards, and keep paying them down so you don't spiral out of control with higher monthly payments. Do not charge up the accounts any higher than 35% unless you have to. The interest payments will be painful and cause you difficulty if you do so.
2. Instead of paying off your car, make monthly payments on it. Instead of paying off your mortgage, make monthly payments on it. Instead of buying a car free and clear or a house, boat, plane free and clear, make monthly payments instead – especially if you can count on the account staying open and in good standing for 5 years or longer.
3. Make it a priority to make your monthly payments on time, set up autopay, and do not overspend on frivolous luxury items unless you are sure that it is in your financial budget.
4. If you ever have a late payment by accident, use the strategy in the book “Debt Cures They Don't Want You to Know About” (available anywhere), to get them to remove the late payment. Also use the tools in that book to ask them to raise your limit(s) on any credit cards you have, periodically.
5. Buy/Start at least one Corporation/LLC. Basically, you are just buying a name that's not already taken from the Secretary of State (SOS), for about \$50. That's it. Now, let it age for 3 years and set your alarm clock for three years, and keep your credit score criteria in good order. Unfortunately, we are unable to fund TRUSTS at this time, but I do highly recommend before buying any corporations, that you make yourself a Secured Party Creditor, so that you can use your Trust as the one buying the legal entity (corporation or LLC), and therefore able to discharge it through your SPC status in the future. Keep your corp/llc in good standing by paying your annual registered agent fee (about \$100), and pay any/all taxes if you do do any business with it. If no business is done, file corporate taxes as \$0, just make sure you have all filings done on time and are in good standing with the SOS. Since it only takes a minute amount of fees and paperwork to be in good standing (about \$150-\$500/year per entity), you may also want to buy up several legal entity names to keep on the shelf. Remember that the corp needs to be in existence for THREE YEARS. So, why not start now and plan for 3 years from now and buy up 10 or 20 corps. You can even sell them to people 3 years from now as they will be valuable as they will be seasoned. You must also have EIN numbers shortly after filing the articles of incorporation to be “started” according to IRS; so make sure you learn how to do this or have us or somebody do this for you (you can learn much of this in the Status Correction Course or our Business Success Product coming soon for all verified 100% official SPC clients). Be sure to Maintain good standing with all this as well as corporate tax returns if required --- just stay organized !
6. Sign Up for UCL's class teaching you how to get your Business to have a Website, 411 listing, do Business Tax Returns, Profit/Loss Statements, get a Corporate Office address (even virtual address) rather than using your home address. You need to have your accounting in order, use Quickbooks, file your taxes on time for your company (even if they are \$0), and be up to par with all that. Years later when you are able to apply for business funding, you will be very happy that you invested the time and money in doing things correctly. Success is an inside job; proper planning prevents poor performance; and all success takes a moderate to long-term planning.

7. Partner with other like-minded people. Even if you do not qualify now or later, all you need is one partner or officer of your company who fits the credit report funding criteria, to sign off as treasurer/CFO/VP/director of your company – and now your company can get the funding you desire. Use Meetup.com, Facebook Groups with like minded people, carry your own personal business cards with you at all times, go to events like Global Information Network, Tony Robbins talks, Network Marketing/MLM talks/meetings, or other speakers/personal development events in your local community. Meet other “Freedom” minded people anywhere – 9/11 Rallies, Infowar Rallies, the Political Candidate you believe in be it Ron/Rand Paul, or Libertarian party or Green Party – just go out and mingle and get out of your house! One loyal friend is worth ten thousand relatives!

8. Create a Business Plan (you can hire UCL to put one together for you), which you can use to present to would-be-investors. All you require is one partner willing to put their credit on the line, and/or pay some of the fees/expenses to make this whole funding criteria work out for you both. With a well prepared business plan, combined with an attractive and pleasing personality, producing proof of moderate success so far with much less resources, plus of course showing that you are willing to work hard and smart and do whatever it takes to make your company succeed because you are personally invested in it with time and effort, is really all you need. Enthusiasm can win people over to invest in you, your vision, your plan. Most people would rather invest in a company than actually run a company themselves, so maybe you will attract the right partner to believe in you and put their money up for you. With confidence it is much easier than you think. The best book I recommend is “The Law of Success in 16 Lessons [original manuscript]” by Napoleon Hill. I feel if you master the principles in that book, you can achieve any/everything you believe in.

So that’s it folks. I highly recommend that if *you personally* fail any of the criteria and don’t want to wait years to qualify, that you get motivated and ambitious about winning over someone in your circle who is willing to join your company and tag their credit in exchange for a piece of ownership of your company (or whatever arrangement you agree on).

In our upcoming Business Success In a Box Course, we even show you how to find people in your neighborhood/community that have \$100,000 or more willing to invest that you can present your business plan too. After mastering the personality factors and personal development that you and I both know is obviously necessary for selling other people on an idea – now we provide the MISSING LINK to financial freedom. With me as your strategic contact offering this program, and a business plan and strategy for pitching an investor or recruiting a strategic business partner, these are what I call the “MISSING LINK” to Success.

Now, All it then takes is just the law of large numbers – present your business plan to 50 or 100 people, and you are sure to find that strategic partner for you. One sale is all you need in life to be massively successful and make all your dreams and goals a reality for you.

I wish you the best of luck!

Go to the website www.LetsGetBusinessCredit.com and add your info to the website to be on our email list and be notified of our upcoming Business Success course. Site may be off-line during high volume seasons, so if the website is up *Get On Our List and we will keep you in the loop for updates and private announcements.*

Make sure you get your Secured Party Creditor status taken care of as soon as possible as well, because that takes time to do, and is a prerequisite to sign up for our Business Success Course.
