

## **Opportunities Now That You Are a Secured Party Creditor:**

### **1. How to “Operate” Your Trust: Getting the Most Out of Maximizing Your Trust for Asset Protection, Tax Savings, and Estate Planning –**

#### **ASSET PROTECTION / EXEMPT FROM LIEN/LEVY/GARNISHMENT/SEIZURES:**

After you open your TRUST bank account, we have probably given you some samples which you can use to replace any/all W4's or W9's with the TRUST via the examples we have provided for you. The fact that you PRIVATIZED your Trust and took control as a Trustee of a PRIVATE FOUNDATION, will be replaced with the U.S. Citizen contract, on any/all employment/independent contractor relationships. Your earnings deposited into your new SOVEREIGN PRIVATE FOUNDATION TRUST BANK ACCOUNT will be exempt from levy/garnishment of any non-judicial or judicial court orders against your Old Strawman's debts. Also, any/all property (all your property) is now in your PRIVATE FOUNDATION TRUST, so it is not the U.S. citizen (which is now killed)'s Asset. So, none of this property can be lienied for any debts of the (now deceased) Strawman. A common question / misunderstanding we often get is “can I put more property in the trust” but all your property has already been in your Trust, and all we did was switch the STATUS of your TRUST to a U.S. CITIZEN (a type of TRUST) to a PRIVATE FOUNDATION (another kind of TRUST). We changed the man, you being a participant in the trust from a BENEFICIARY (having others control the trust assets on your behalf), to a TRUSTEE of your TRUST, now you control the assets/decisions. You also get your tax-free expenses to be deducted out of the trust before any “gains/profits” are calculated and taxes paid. This is exactly what Bill/Hillary Clinton do with their “Clinton Foundation” which has come under huge criticism. We set up the exact same thing for you so that you can pull the same bullshit that they are getting criticized for! But it's 100% legal. The Clintons live a high lifestyle with all monies going into their Trust (90%) is spent or allocated for themselves as “Trustee” expenses or Trust Expenses – and then 10% leftover is given to the beneficiaries for “Humanitarian” projects like disaster relief. Your doing the same exact thing - only your beneficiaries are the ones you selected whoever they are. And you don't have to pay them directly during your life per se....as long as you are working toward their ultimate benefit at some point during the life of the trust. If you provide any support for your beneficiaries, like letting them (if they are your kids) stay in the trust's home or pay for their educational expenses or substance, clothes, shelter food, etc. then that is how you “operate” your trust – which is how most of you already have been doing already, we just had to formalize it all because you are now the trustee rather than the government being the trustee. or have and show an intent to be doing so, then you are operating your trust legally and for their benefit, not for your benefit.

#### **MORE ON TAX FILINGS:**

Your TRUST will file and pay much less taxes generally than you as a social security number U.S. citizen individual. You need to get the knowledge or hire an accountant to do your annual 1041 filing. Many of our clients wind up paying \$0 on their tax returns as long as purchases equal deposits; however, you need to consult with an accountant and/or learn the basics about accounting for a Trust. A great book is “Accounting for Dummies” to pick up a copy of TurboTax for Trusts; or, just hire an accountant every year to do your taxes. But the more you know, the better tax planning strategy you can use when instructing your accountant and keeping certain minutes, resolutions, and records.

#### **MORE ESTATE PLANNING TO CONSTANTLY THINK ABOUT:**

1Also now your Second Trustee will be left with the duty to control/re-distribute your assets that you left in their care, for the benefit of (them and) your beneficiaries. You will want to leave a

memorandum or minutes behind amending your declaration of trust to detail what happens if/when you become deceased... you do not want to leave any loose ends behind and confusion. If you are clear to them what happens then this acts in place of a Will and now the government has no jurisdiction and your family do not need to bring any action through probate, will pay nothing for lawyers, and when you die your trustee will have control of any bank accounts, other accounts (retirement, life insurance, etc).

#### **ONE EXAMPLE: WHAT TYLER HAS DONE:**

What I personally have done, is instructed the second trustee to use / control the trust to grow assets to accumulate more money the best to their ability, until the point in time where/if any of my offspring prove they are more competent and responsible to use trust assets to accumulate more gains than the trustee. This decision shall be at the trustee's sole discretion. Upon the presumption at this point in time, and upon the beneficiary being of age 18 or older, then the beneficiary submits a formal business plan and request for certain funds as an investment, the beneficiary shall be given a distribution of funds for this, or any approved entrepreneurial educational expenses. Upon a certain criteria being met, or proving competency and responsibility and upon the beneficiary proving that they stayed away from drugs, alcohol, video games, or other wasteful or nonproductive activities, and upon my death and upon them being at least 30 years of age, the beneficiary shall be disbursed an equal portion of trust assets on par with all of my qualifying offspring. My spouse shall be added as an equal beneficiary provided that my trustee at his sole discretion determines that he/she is/was fully faithful and loyal to me, and upon her being my spouse for a minimum of 10 years and up until my death.

#### **ESTATE PLANNING CONCLUDING THOUGHTS, FOR NOW:**

You have your whole life to think about re-adjusting or changing your mind and asking your second trustee to resign at any time and replace with a more trusted compadre to be your second trustee. You can also balance out their power by inviting and appointing a third trustee, this way if you disagree with one trustee, you and the other one can outvote their lack of agreement with you. Life is always changing as we meet new people and make new and closer (and better trusting) friends. We have and will continually add forms to change/update these positions at the FREE EDUCATION > FREE DOCUMENTS or you can in the future always pay us a small fee (\$100) to help with any adjustments (Or learn yourself over time from reading books on trusts/taking Status Course). Having all this set up perfectly with amendments to your trust declaration in the form of board resolutions, is not a priority right now unless you have a LOT OF MONEY/PROPERTY/ASSETS at stake which will be in question when you die, AND/OR if you think you will die/expire soon!!! However, no one knows when that will happen so if you have a lot of money/assets and you know for sure who you trust to control it or benefit from it when you die, then you may want to re-solidify all this as soon as you change your mind about any of it.

**2. Discharge of Debt** – Some debts can be discharged through the Treasury after you have become a Secured Party. This is accomplished by opening up your Treasury Direct Account, which is done by depositing a bond off your birth certificate. This is accomplished within the paperwork you do in the SPC process and mailed to Puerto Rico Secretary of Treasury. Other debts can be discharged directly with the company and may or may not require an open Treasury direct account. We look at your loans to decide/recommend the best process, because there are many ways to skin a cat – if you will. We can do Credit Cards with high balances, Student Loans, Medical Bills, Private Loans/Business Loans, Court Fine/Orders of any Kind, are all game. Process fee may include a securitization audit to locate hidden accounts created off the original loan/account - and we have capacity to kill those at the same time, otherwise the account can be brought up again by a debt collector. Please send the latest account

statement(s) only for any/all accounts, and the “Judgment” and “Order”(s) for any Court Ordered payments, so we can evaluate. We do not do auto loans or mortgages because they are very difficult and not 100%, so we do not wish to have any unsatisfied customers for our services. By reading carefully the rest of the form below you will find further explanation. Also, any small bills like electric, phone, or any accounts that you wish to keep open – does not work because they will close the account during a discharge. Any federal student loans that you discharge, you will be blackmailed for life and not allowed to take out anymore student loans.

**3. LOC Program: Application for Credit Funding** – Before trashing your credit score by discharging your debt(s), you may want to consider if you can get the maximum use out of your credit report/scores while your accounts are still open. *Trashing my credit score - Huh? Yes, Well, let me explain* – when you pay off your accounts and close them, your credit scores go down. To maintain a good credit score, it is much better to keep making monthly payments on credit cards, auto loans, and mortgages. So, if you discharge some or all of your open accounts, your scores will drop. So, before you do that, if you are still current on all those revolving monthly accounts, *namely credit cards, auto loan, and mortgage(s)*, then instead of jumping right in to discharge those debts, I encourage everyone to first explore the option of especially if you have a fair credit score – 650 or higher – is to evaluate your capacity to get a line of credit. The goal is to boost your score to 700 or higher within a month or two. Here’s how it works: you may need to pay down your credit balance-to-limits to a ratio down to 35% or lower, and pay a credit repair company to remove any late payments, or derogatory remarks such as judgments, chargeoffs, defaults, public records, arrests, or bankruptcy. Once that is done, if we can get your score to jump back up to 700 or higher, then we can submit an application to seek approval into a funding program. Our funding program can get you anywhere from \$100,000 to \$1Million on an unsecured business credit card. We tag your personal credit to a corporation – if you have a corporation or LLC already this helps but if not we can partner you with somebody that does, or an aged corporation can be sold/transferred to you. If you can get funded, now you can use that money to start a business, buy a business, buy real estate, pay yourself a personal salary, pay off your mortgage (which we can NOT discharge), or make a wise investment or series of investments. UCL has many investment programs available where we seek 200%-300% Returns for our members. Only the coolest, most respectful, friendly/supportive clients that we have the best chemistry with are invited into this “Inner Circle”. Once you get your desired funding and extract the credit to utilize for any/all goals, make sure to extract the fees required for us to discharge in advance, and then you can pay us to discharge the credit account. Once you discharge, again, your credit scores will drop. So, you get one shot at doing this magic formula – but if this does work for you then you basically will have the funding to get the resources you need to buy the assets and investments you need to never have to work another day in your life again! Be aware that careful planning and exact criteria is extremely important, and some of this strategy will take patience. Patient and cool fair-minded people only! Basically, “No Knuckleheads!”

**4. Court Case Discharge, Removal of Criminal Court Record/Penalties/History** – Rescission of Consent to be Charged, Release of Lien on your Body used in Criminal Court Proceeding to imprison you, Discharge of any penalties – probation, fine, restitution, etc. Discharge from prison. Please send us any Criminal Complaint/Information/Indictment if pending (before sentencing); or send us the Judgment and Sentencing Order(s) (if after sentencing). Need these for any/all criminal history – do not just send the isolated instant court case, we need to discharge all history as it’s all or nothing otherwise the process does not work.

**5. Defenses to Defeat Charges – Learn Yourself With Tools or Hire Our Experts** - As an SPC, if you are given any civil or criminal complaint or charges, you can defend the case as an SPC. You still

should be seasoned and prepared if/when this happens, and you still should AVOID at all costs any confrontations. If you have issues with your JOHN DOE TRUST's driving record/license, then please Do NOT drive (or, don't travel in an automobile). It is extraordinarily costly in time money and distraction from your business and personal life to fight legal battles, the best way to win is to avoid it in the first place. We have experts that can help you or coach you, but remember "an ounce of prevention is worth a pound of cure". So don't get cocky and think that they can not arrest you or charge you because they certainly can. If this happens, it's up to YOU to affirm and prove that you are a private citizen/secured party and that they do not have jurisdiction. We have a great training in our Status Correction Course going over this material. As our gift to you we are giving you this one section extracted from the Status Course - <http://tinyurl.com/challengejurisdiction>

**6. Status Correction Course/Empower Yourself Pack Study Guide** - We have other workbooks and trainings available in the Status Correction Course as well, totaling 41 hours of material in a wide array of topics/categories of sovereignty, asset protection, privacy protection, and paperwork/document preparation and research tools, plus historical context and citations, court cases to study along with key definitions and "cliffnotes" study guides. Many people ask us about the Empower Yourself Pack, and despite the amazing name of the product,, we do not offer it alone and are updating it with new and relevant materials. We have deleted old/outdated information contained herein and have put the best material into the Status Correction Course.

**7. Tort Lawsuit for Damages and Civil Monetary Compensation** - If you have suffered an injury/loss/theft/fraud/loss of life, liberty, property, damage to your limbs, vision, from occupational hazard, or been the victim of kidnapping and prosecution by the state/agents under color of law, or have been scammed/defrauded/stolen from, or have any ground for a claim, talk with us about the feasibility of a lawsuit to go after damages via tort action. This is something that is only possible as a secured party.

**8. Judgment/Bond/Buying and Selling Opportunity** - You can now purchase and sell others' judgments as a secured party, and join our moneymaking business opportunity to become rich and wealthy. Just one decent judgment can be floated on the open market and you can live off the interest for life. Get with [www.MonetizeJudgment.com](http://www.MonetizeJudgment.com) as we have a separate email contact list for this.

**9. Clear Up Your Tax/IRS Issues** - If you have past tax years unfilled or in question or past tax bills/debts, we recommend you take care of those matters so they do not escalate or come back to haunt you. Contact us to discuss feasibility and all possible solutions.

**10. Withdrawal of SSN** – We can withdraw you from the SSN system, and you will not be obligated to pay social security taxes, medicaid/care taxes; you also will no longer have a SS Card or number, so you can never get any personal loans from any financial institutions ever again. There are various websites sprouting up for peer 2 peer loans, and various ways you can partner with family/friends who do retain their social number(s), which is how we would suggest you change. Or you can use an EIN number as the trustee of a Trust and/or the Officer of a Corporation or LLC. Withdrawal of SSN number from their system pulls you out of any accusation of being a "government contractor" or "government employee" - and there is a major escalation of protection if you do elimination this. It is like an SPC process on steroids. After this, it is possible to rescind your contracts with DMV, etc, and you can travel in an auto in a Trust or Corporation and you can just show your passport and they will run your name in the computer, see you are not a government employee (no social) and you are not in their system – like an illegal alien – they do not have jurisdiction over you and will let you on your merry way.

11. **Alternative Identification** - Whereas, only “U.S. Citizens” can apply for drivers licenses, and whereas, most people carry around a drivers license as I.D., what do we do about carrying I.D.? I highly recommend keeping the TRUST’s drivers license in your auto so when you use it, you can rebut any presumption that “you” are driving without a license, which you can get arrested or charged for. It’s not a battle worth fighting now – but just know that you are not a licensed driver, your ALL CAPS TRUST NAME is. So, by maintaining and furnishing a drivers license during the act of (presumptive) driving, it is not waiving your rights in any way as long as you are a secured party creditor. But what if you are walking down the street not presumptively “driving”? I would not recommend to carry a drivers license because if you are stopped and frisked or compelled to furnish I.D. and you provide this, the cops are trained to treat you like they have jurisdiction over you (since only U.S. Citizens can have drivers licenses). A simple way to combat this is to when you are walking, or living in your home, do not have a drivers license on you (I keep it in the auto at all times). You can get alternative ID such as a State non-drivers ID through the state DMV/Department of Motor Vehicles. You can apply with or without a SSN, but with proof of birth – and you can apply and get the I.D. good for 10 years, and then do any other process to withdraw your SSN later if you so choose. The furnishing of a State ID can be for a non-Citizen also, as this is also available to non-Citizens. Another option is to use your existing Passport from the State Department. The State Department issues passports for Citizens AND non-Citizens (Nationals) also. The furnishing of a Passport does not give a definitive assumption that you are a Citizen – it merely shows you could be either a Citizen or National. Dep of State also offers Passport cards, so these are much more convenient to carry around than the full Passport Book. Now, if you have not applied for the Passport, or if you wish to “say” you lost yours and to re-apply as a National (or once yours expires and you are re-applying), then you may want to follow the instructions at <http://freedom-school.com/citizenship/passport-attachment.pdf> . We currently have Researcher-Testers currently submitting Passports filled out “correctly” as a National (crossing out all “Citizen” and other changes), and we are currently testing to try to get a teachable example of how to fill out the form correctly. The State Department especially since Obama/Clinton have been in control, is giving us a VERY HARD time and keep rejecting, so we need to keep re-trying with the forms filled out differently. Once we have a perfect system that works 100% off the time we will provide that material in the Status Course and will offer it to all people who finished the SPC4U process. But if you haven’t even become a secured party, then your chances of getting an approved American National-stamped passport is very unlikely or impossible.

## References:

Non-Citizen State ID - <http://www.dmv.org/ny-new-york/id-cards.php> (It says you need to be a Citizen OR RESIDENT and require a SSN but this is NOT the case they are lying on the website to hide the fact that non-citizen non-ssn private citizens can apply and receive cards also. Remember, the State has a duty to the *people of the republic* and also the citizens, they have both capacities and both obligations to server/protect both those in the REPUBLIC **and** the DEMOCRACY/U.S./U.S. Subsidiaries.

## 12. Other “Inner Circle” Opportunities –

We are engaged in various group investment opportunities, so that we all may benefit and grow each of our trust assets, to accumulate wealth and pass it down from generation to generation.

We are also involved with *collective litigant actions with out inner circle members*, seeking compensatory damages for a variety of injuries – you may even be an injured party to one of these claims, and not even know it yet! I can bet there’s a great chance that you are. We have separate full-time experts digging up court cases and preparing their own court cases and are looking for others who fit the same status as an injured party to file these “Class Action” claims on your behalf. Once we win the case, a split of the proceeds will be allotted to all secured party creditors involved.

The Inner Circle membership is for the people most grateful and supportive of UCL’s mission, vision, and purpose. And yes there is a membership fee to get involved. Here is the reason: We use the membership fees to pay the experts to quit their current jobs and work full-time under the direction of Tyler, as well as to pay for the expenses for digging up court cases/preparation of these cases and/or filing fees or commission payment accounts to pay marketers/salespeople to find the clients for the business ventures that you are investing in.

There is an Inner Circle website explaining more about what we are doing, coming soon. The website with more information and the current entry fee/application form is at: [www.InnerCircleUCL.com](http://www.InnerCircleUCL.com) (estimated to be Launched at/around October 1, 2016)

Price upon launching is expected to be \$10,000, and we are only looking to recruit the best and most mature 5 or 10 people to participate. Access to and willingness to invest additional funds, is a strong preference. It takes money to make money, and when 10 people who have \$100,000 to invest as a team, plus their contacts, skills, and able to pull strings together, you have \$1Million in startup capital and 10 like-minded, mature, dedicated people ready to start a new business venture. Again, this is the cream of the crop and our favorite clients, and this is the people who are automatically entered into friendship and business partner status with Tyler, Ava, and our team. We work together to start new high-return multi-Milliondollar and multi-Billiondollar business ideas and bring these projects to life.

If you can not join the Inner Circle at this time, that is OK. Please do not feel offended like we are excluding you. We have 7,000 people on our list, and only can communicate daily with and travel to meet and work directly with 5 or 10. We also are working on HUGE Projects that TAKE MONEY to launch. If you can not join, then that is OK - Just support our work by purchasing our other services/products, as the “bread and butter” product keeps us going and eventually when and if our other larger projects are fruitful, every UCL member will be the beneficiary of any new discoveries, resources, or inventions that we bring to the (private) (or public).

All Inner Circle projects have the goal to free humanity and offer freedom-services to UCL members or to make life better for other of our fellow people on earth.

**One Inner Circle project has a potential to yield 10x-20x investment and is a short term and as close to a guarantee as you can get. Would you like to turn \$100,000 into \$1 Million ?  
Contact us for serious inquiries only.**

**12. Stay On Our E-mail Lists We are Moving and Molding Very Fast and Always Have More Ideas/Products/Services/Collaborations on the Horizon - Make sure that you are on BOTH e-mail**

lists and that our email “[contact@understandcontractlawandyouwin.com](mailto:contact@understandcontractlawandyouwin.com)” is in your email CONTACTS, and marked to go to your INBOX , not your BULK or SPAM folder!

## **WHAT WE CAN'T DO FOR SECURED PARTY CREDITORS:**

1. Many people keep contacting us asking if we know how to “access” funds from your birth certificate trust, that are trading on wall street, or “hidden” accounts with the U.S. treasury. As explained above in #2 – we can DISCHARGE DEBT - but you can not use this to make purchases, and we can not access any accounts with credit for spending. In fact, I believe that this is a rumor and does not exist. I have my own reasons for believing strongly that this does not exist, and I explain so on my weekly audio recordings, where if you are on my email list you will hear me explain this in much detail.
2. Car loan debt and mortgage debt, can be discharged but we have trouble releasing the liens and that is mostly what people want. If you do not care about the auto being repossessed or home foreclosed and sold, or if they already have yet you still retain the unpaid debt in your JOHN DOE (trust) name, then we can probably eliminate that...but you also can eliminate that with a bankruptcy which is a mainstream public remedy also.
3. No, you can not simply send in a statement with “Accepted for Value...” language written across it and mailed to treasury or the company directly, and hope that your debt will be discharged or setoff. I go over this in much detail on my weekly audio recordings, which are free.

## **Make sure you are subscribed to my email lists:**

1. My MAIN E-mail List that has been FREE for FIVE YEARS STRAIGHT – sign up at [www.UnderstandContractLawAndYouWin.com](http://www.UnderstandContractLawAndYouWin.com)
2. If you bought the SPCDONE4U Process, I have also added you to a separate email list with rare and more private announcements and opportunities just for you!
3. If you bought the STATUS CORRECTION COURSE I have a separate email list for list with updates and special offers/rare opportunities just for you!
4. Inner Circle – this is for my special close circle investing in our projects, collaborating on our R&D, and working to make Big Money with UCL on various offshoot joint ventures. Likely we will be on the phone, skype, and/or texting but I also maintain an email list when I need to share a writing, document update, or training video, or update on progress for investors.
